

STAT TEST LIST

Expected TAT for a Stat test is 1 hour or less in lab. Tests listed with an asterisk (*), expected TAT is 2 hours. STAT orders for tests not listed above will be processed as "routine" unless there has been prior consultation and approval by a pathologist.

Transfusion Medicine

6 ml Pink Top (EDTA) Tube:

Blood Typing	Direct Antiglobulin Test	Crossmatch
Transfusion Reaction	RBC (product order)	FFP (product order) PLTS (product order)

Chemistry

4 mL Green Top (Heparin) Tube unless otherwise specified:

Alk Phos	CK	Lactate
ALT	CKMB	Lipase
Ammonia	Chloride	Lithium
Amylase (available on urine)	Creatinine (available on urine)	Magnesium
AST	Electrolyte Panel	Myoglobin
Basic Metabolic	Fetal Lung Maturity (Amniotic Fluid)*	Osmolality (available on urine)
Bilirubin (BuBc,) Neonatal	Glucose (available on CSF)	Potassium (available on urine)
BUN	HCG, Quantitative, Serum	Protein, Total, CSF
Calcium	HCG, Qualitative, Serum	Sodium (available on urine)
Cardiac Panel	Hepatic Panel	Troponin I
Carbon Dioxide	Ketone Screen	

Hematology/Coagulation

3.0 mL Lavender Top (EDTA) Tube:

CBC
CBC with Automated Differential
Cell Counts (CSF, Fluid)
Hematocrit
Hemoglobin
Platelet Count

Urine Plastic Container

Pregnancy Test
Urinalysis

4.5 mL Blue Top (Citrate) Tube:

APTT (Activated Partial
Thromboplastin Time
PT (Protime)
Fibrinogen
D-Dimer
FDP (Fibrin Degradation Products)

Immunology/Microbiology

See Specific Test under Test List Section for Collection Information

Group A Strep Antigen Detection	Respiratory Syncytial Virus Ag (RSV)
Cryptococcal Latex Antigen	Influenza A and B Antigens
Gram Stains	KOH Prep

Stool, WBC
Wet Mount Exam

Toxicology

1.5 mL SST tube unless otherwise specified:

Acetaminophen	Drug Screen, Gastric*	Phenytoin
Alcohol Scan	Drug Screen (Abuse), Urine	Primidone
Amniotic Fluid Scan	Drug Screen (General), Urine*	Procainamide/NAPA
Amphetamine (Qual), Urine	Ethylene Glycol	Salicylate
Barbiturate (Qual), Urine	Gentamicin	THC (Cannabinoids) Qual, Urine
Barbiturate (Quant)	Heavy Metal Screen	Theophylline
Benzodiazepine (Qual), Urine	Lidocaine	Tobramycin
Caffeine	Methotrexate	Tricyclics, Total
Carbamazepine	Opiate (Qual), Urine	Valproic Acid
Cocaine Metabolite, Urine	Phencyclidine (Qual), Urine	Vancomycin
Digoxin	Phenobarbital
